XTG

ITALIANO

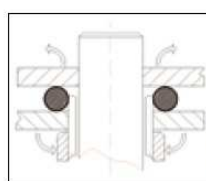

TIPOLOGIA	CATENA OFFROAD/QUAD
NOME	XTG
DESCRIZIONE	Catena 520XTG. (XTG = Xtreme Triple Guard – o-ring a tripla tenuta)
CODICE	SS520XTG-XXXG
CARATTERISTICHE TECNICHE E BENEFICI	Catena (XTG = Xtreme Triple Guard – o-ring a tripla tenuta) utilizza la tecnologia di guarnizioni TripleGuard, ovvero 3 labbra di tenuta e aree di lubrificazione per lato della guarnizione invece di avere un labbro di tenuta solo su un lato, tipico degli o-ring standard. Questo garantisce che le aree critiche della catena siano sempre protette dalle dure condizioni che si incontrano nelle gare di offroad (per questo il nome Xtreme per le condizioni estreme) e che la catena resti ben lubrificata per utilizzi più duraturi. XTG è perfetta per tutti gli ATV e per le moto offroad di 750cc e cilindrate minori. Tutti i componenti sono trattati termicamente al 100%. Utilizza chiusura a pressione a clip di colore oro (link esterno oro, interno neutra).
O-RING	TRIPLE GUARD
ACCESSORI	Pignoni P-DRIVE, corone STEEL, TRIPLE STAR, WORKS Z

XTG

ENGLISH

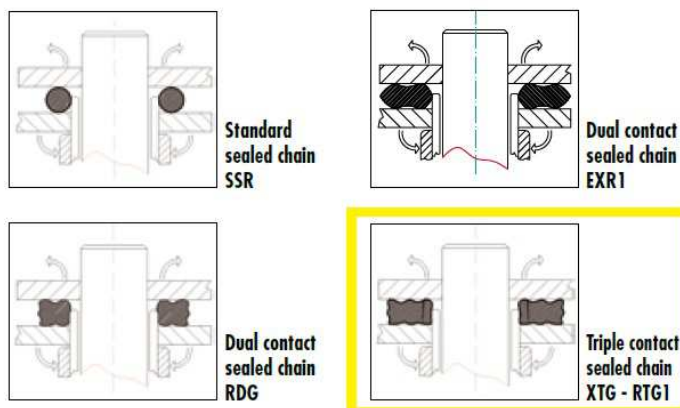

TYPE	ENDURO/ATV CHAIN
SERIES	XTG
DESCRIPTION	Sunstar's premier sealed Works level chain is the 520XTG XTG=Xtreme Triple Guard
PART NUMBER	SS520XTG-XXXG
TECHNICAL FEATURES AND BENEFITS	Sunstar's premier sealed Works level chain is the 520XTG (XTG = Xtreme Triple Guard) which features our TripleGuard sealed ring technology meaning there are 3 sealing lips and lubrication pools per side of the ring versus a single sided lip that is typical of standard o-rings. This ensures that the critical areas of the chain are protected at all times from the harsh conditions encountered in off road racing (hence the name Xtreme for extreme conditions) and that the chain stays well lubricated for a long duration of use. The XTG is perfect for all ATV's and Off Road Motorcycles 750cc or less. All components are 100% heat treated. It's uses a press fit, clip type connecting link in the gold outer plates / natural inners.
O-RING	TRIPLE GUARD
ACCESSORIES	P-DRIVE front sprocket, STEEL, TRIPLESTAR, WORKS Z SPROCKET
